

I am upset to think that someone in washington who is probably taking something from a telamarketing lobbiest is going to tell me that I have to be bothered at all hours of rhe day and night so that a telamarketer can make money.

I have had calls as early as seven in the morning and 10 at night. My personal time is mine not theirs. I don't want to come home to six or seven messages on the answering machine either.

Government sticks it's nose in to sometimes the wrong thing. I live in New Jersey, what happened to "States Rights", leave our law alone.
